

International Monodrama Forum IMF

ITI 37th World Congress International Monodrama Forum Report

International Monodrama Forum of ITI members held a meeting during the World Congress on September 2024 and discussed about how we can increase the visibility of the forum and engage more artists practicing monodrama. The members have agreed on the following:

- Membership of IMF should be open to all artists who are engaged in monodrama, meaning that we welcome theater artists who are not ITI members;
- We are living in a world where reels and short videos are important tools to attract audience and promote theater works. Therefore, IMF members are encouraged to share their works and festivals on the IMF Facebook public group using short, informative, and attractive videos with contact information.
- IMF invites theater artists engaged in monodrama performances and festivals to join our Facebook public group and share their works.
- IMF asks all ITI members to spread the words about the IMF and the public group on Facebook and encourage theater artists to join.
- IMF members also decided to request the monodrama festival directors to invite at least one young, meaning fresh out of university graduates who are starting their journey into the world of monodrama, to their festivals. We believe that it is extremely important to create an opportunity to learn and establish networks with experienced artists.

In our Forum we welcome Fran Wright from ITI Austria.

Only four of the members of IMF were present at the meeting, thus it was decided not to hold any elections and keep the president and vice presidents as it was before. The position of Secretary is taken by Vjera Mujovic.

So the Board is:

President: Mohamed Al Afkham

Vice Presidents: Nina Mazur & Olga Pozeli

Secretary: Vjera Mujovic
